ngVikings
CONFERENCE

25 MAY 2020

The main
Angular Conference
in the Nordics

What is ngVikings?

Over the past couple of years, we have gathered developers throughout the Nordic countries. We have done this by embracing diversity and establishing a community with one common passion, which is empowering developers' community.

ngVikings are a series of **community-driven** and **non-profit** events across the Nordic countries. Our talks and workshops will be mainly focused on Angular and other technologies related to the Angular framework. Our goal is to strengthen the Angular community in the Nordics by bringing it together while inspiring and learning from each other. Nothing fuels collaboration like meeting in real life.

This year's ngVikings event is scheduled for **May 25th 2020** . This event will gather 400+ developers primarily frontend and full-stack developers and experts from all around the world on an online webinar.

ngVikings is a 100% community-driven event comprised of many Nordic Angular groups with a core community of up to 5.000 members, concluded from:

- ngCopenhagen
- GDG Copenhagen
- Women Techmaker Copenhagen
- Angular Oslo
- Angular Gothenburg
- Aarhus JS
- Angular Finland
- ngStockholm
- GalsTech

Previous Conferences

Copenhagen, Denmark 2017

Helsinki, Finland 2018

Copenhagen, Denmark 2019

Sponsorship Package

- Logotype on the website
- Mentions on the opening keynote
- Mentions on the social media
- Logotype on the post-event videos
- Logotype during the live streaming

25000 NOK (+ VAT)

ngVikings is not about the money

Most ngVikings use up all their sponsor and ticket money in planning of the event, but when there is a surplus, it is used to benefit the community and it will not be treated as profit to be pocketed by the organizers.

Surplus money is used for things like:
- Funding an ongoing Angular meetup group's get-togethers
- Seed money for the next ngVikings event
- Donations
- Increase diversity in our event(s)
